

HAVENING TECHNIQUES®

is coming to New Mexico

Havening is an exciting and deceptively simple approach to help eliminate trauma related disturbances linked to phobias, chronic pain, panic attacks, cravings and more. It has helped thousands of people worldwide, including veterans suffering from PTSD and other war-related stresses.

The Havening Techniques® utilizes current neuroscience to help heal many issues. It is a psycho-sensory technique that uses the sensory input of touch, imagination, and attention to create lasting change.

This Havening training offers extensive instruction by seasoned practitioners on how to apply these techniques. The certification process will continue after this workshop with one-to-one mentoring focused on the completion of all certification requirements. [Please see details on certification page at havening.org.](http://havening.org)

We invite you to learn from international master trainer, Donna Ryen and facilitator, Certified Santa Fe Havening Practitioner, Micki Halloran.

Date: March 20, 21, 22
